Coordination copies to:

Item: INDUSTRIAL WASTE LINE RM 407 **Type:** ARCH/STRUC
Reference: A1.9, M2.4.2 **Spec. Section:**
Attachments: ATTACHED PICTURE

Description of Request

QUESTION:
There is an industrial waste line that is not enclosed in a wall or under cabinetry in Rm. 407 the waste line serves the fume hood in Rm 408 and could not run in the wall because of the concrete beam below. The space where the industrial line is run is allocated for a future bio-safety cabinet.

RECOMMENDATION:
Place cabinetry in this location to cover up the industrial waste line (possibly the cabinetry that is not being installed in Rm 011) or fur out the wall in this location to make it look like a column.
